#### **UCLA Forecasters See Slow Economic Growth for 2016**

The state and national economies have underperformed expectations this year, with lagging productivity largely to blame, according to economists with the UCLA Anderson Forecast. One year ago, the UCLA group forecast that the U.S. economy would grow 3% in 2016. Their revised forecast for 2016 Gross Domestic Product growth is now 1.5%.

At a conference on the UCLA campus on September 28, 2016, Senior Economist David Shulman explained that it will be extremely difficult for the U.S. economy to return to a 3% annual growth path without an improvement in productivity from near zero to about 2%. This observation was put in the context of the major economic proposals offered by the two presidential candidates. Shulman concluded that deficits will rise no matter who wins the White House, but improvements in productivity will take many years, notwithstanding major investments in infrastructure and education, and reform of the U.S. tax codes, as proposed by the candidates.

The U.S. economy has been running at a 1% growth rate since the fourth quarter of 2015. The UCLA forecast shows that the second half of 2016 will grow at a 2.7% pace, bringing total growth for the year to about 1.5%. Shulman explained that consumer spending is expected to weaken in the second half of the year, as auto sales level off, but overall growth will accelerate with a "hand off" to the business sector. Fixed business investment is expected to improve, especially in oil and gas drilling equipment.

The big wild card in the forecast is the performance of the global economy and exports. There has been essentially zero growth in U.S. exports for the past two years due to the strong dollar, weak foreign economies, and growing protectionist sentiments. The UCLA forecast assumes a modest increase in exports, but Shulman acknowledges that this is one of the riskiest assumptions in the forecast.

The forecast reflects rising inflation and an expectation that the Federal Reserve will raise the discount rate 0.25% in December 2016. As the economy reaches full employment and oil prices begin to rise, the Federal Reserve is expected to raise the discount rate to about 1.5% by the end of 2017.

Consistent with the national forecast, the UCLA economists revised downward their outlook for the California economy. One year ago, UCLA anticipated a 3.8% increase in state personal income in 2016. Yesterday's revised forecast put growth at 2.6%.

In light of the critical views of both presidential candidates with regard to international trade, Senior Economist Jerry Nickelsburg, examined the effects of a trade war on the California economy. Extrapolating from the effects of Great Recession on the trade-related sectors of the state economy, Nickelsburg concluded that a trade war could reduce state personal income growth by 0.22% and reduce overall employment growth by 0.68%. He acknowledged, however, that these estimates should be taken with a grain of salt, since the economic models reflect data since the end of World War II and the U.S. has not engaged in a trade war since Smoot Hawley tariffs were imposed in 1930.

#### 2017-18 System Budget Request Approved

Yesterday, September 19, 2016, the Board of Governors (BOG) approved the 2017-18 system budget request to be submitted to the Brown Administration for consideration. Much like in past years, the request includes funding for access, cost-of-living (COLA), and base allocations. Unlike in past years, there is no new, taskforce-based funding request. The budget request totals nearly \$800 million in ongoing spending.

The top funding requests are as follows:

- \$125 million for 2% access/growth in full-time equivalent student
- \$100 million for an estimated 1% COLA
- \$200 million for a base funding increase to cover general operating expenses
- \$100 million for full-time faculty hiring
- \$25 million for part-time faculty compensation and part-time faculty health insurance programs
- \$25 million for Veterans Resource Centers (VRCs)

Reflecting increased costs to run California Community Colleges (CCC), the system budget request is also asking for \$50 million in technology funding, \$50 million for campus safety needs, and \$25 million to increase colleges' capacity to address mental health needs of students.

If one-time funding is available in the 2017-18 State Budget, the system budget request prioritizes these needs:

- \$15 million for the California College Promise Innovation Grant Program
- \$15 million for Innovation in Education
- An undefined amount for Deferred Maintenance and Instructional Equipment

Finally, the request also seeks a restoration of Cal Grants for CCC students, a guaranteed revenue backfill, and additional staffing resources for the California Community College Chancellor's Office (CCCCO).

Several veteran students and college staff came to testify in support of the system request to support VACs.

At one point, the BOG was considering significant increases to the requests in the funding for VRCs, mental health, and professional development. Ultimately, the BOG approved the request as proposed by the CCCCO plus an additional \$5 million for VRCs (bringing the total request to \$30 million) and \$5 million to address the issues of food insecurity and homelessness in CCC students. The request will be sent to the Administration for consideration within the week.

Statewide Implications

Growth

**Deficit Factor** 

#### **EXHIBIT C BUILDING BLOCKS**

- Base & marginal rates per FTES
  - Grandfathered districts
- Last year's funded FTES
- This year's funded FTES
- Property taxes
- Enrollment fees

#### APPORTIONMENT SIMULATION WORKSHEET

- This worksheet was developed by Ed Monroe at the Chancellor's Office. It has been updated for P-1 2015/16 by Kathy Blackwood. Much of the information must be keyed in by the user. This worksheet is a simulation and is guaranteed to NOT be exactly what your district will receive in funding. Hopefully you will find it useful in reviewing the Exhibit Cs and projecting your district's revenue.
- The referenced interactive excel document that is prepopulated for use by all 72 districts can be found at www.acbo.org under the Spring 2016 Conference section.

#### DECLINE/STABILITY/RESTORATION

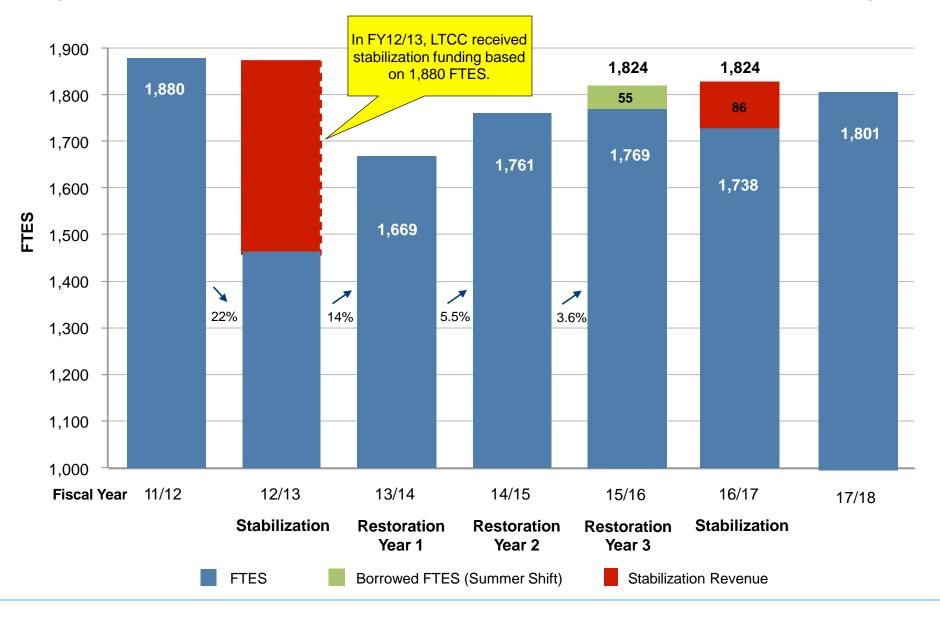

- Decline is when a college has fewer FTES than the previous year
- Can get complicated when the FTES are switching between non credit and CDCP
- A college gets stability the first year of decline
  - Funded at the same FTES as the previous year

#### DECLINE/STABILITY/RESTORATION

- Restoration brings the college back to previous years' FTES level
- Three years to restore the FTES
- There may be 3 years of decline simultaneously
- The oldest decline is restored first
- The dollar value is restored; the mix of the FTES may change

## STABILIZATION AND RESTORATION

(SCENARIO 1: LAKE TAHOE COMMUNITY COLLEGE EXAMPLE)

## TITLE 5 § 58776. BUDGET STABILITY.

Districts shall receive stability funding only in the initial year of decline in FTES in an amount equaling the revenue loss associated with the FTES reduction for that year.

Declines in college FTES that result in a reduction of calculated basic allocation will not cause a reduction in basic allocation base revenue until the third year after the year of the FTES decline, and the basic allocation will not be reduced if the FTES is restored back to or above the pre-decline base.

#### **FY2015-16 BASE FUNDING RATES**

Level 1 - 9,940 FTES or less

\$3,402,370 single & multiple college districts

Level 2 – 9,940.01 to 19,880 FTES

\$4,536,493 single college

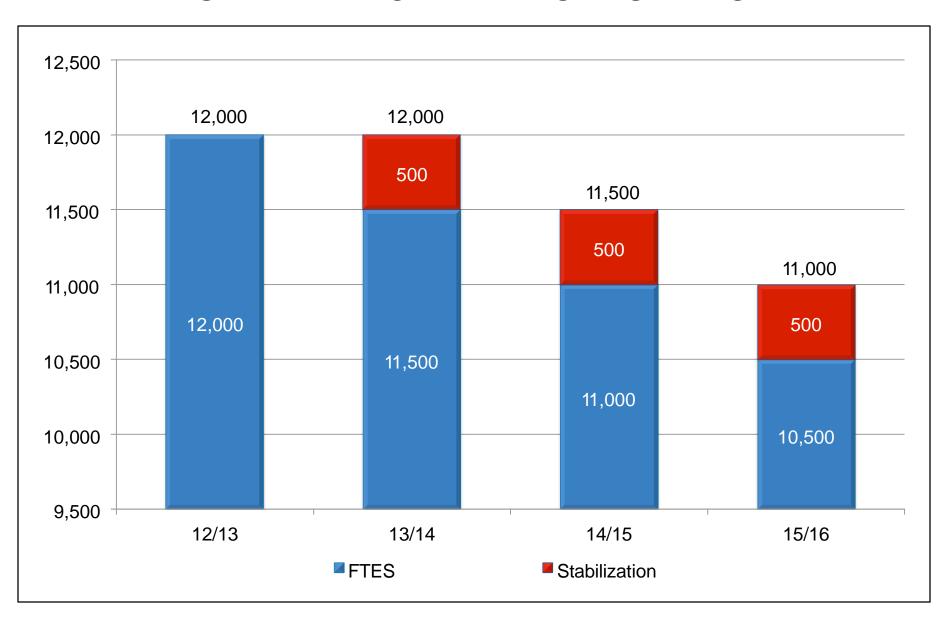

\$3,969,432 multiple colleges

Level 3 – 19,880.01 FTES or more

\$5,670,617 single college

\$4,536,493 multiple colleges

## SCENARIO 2: THREE YEARS OF SUBSEQUENT DECLINE STABILIZATION REVENUE FUNDING

#### RESTORATION

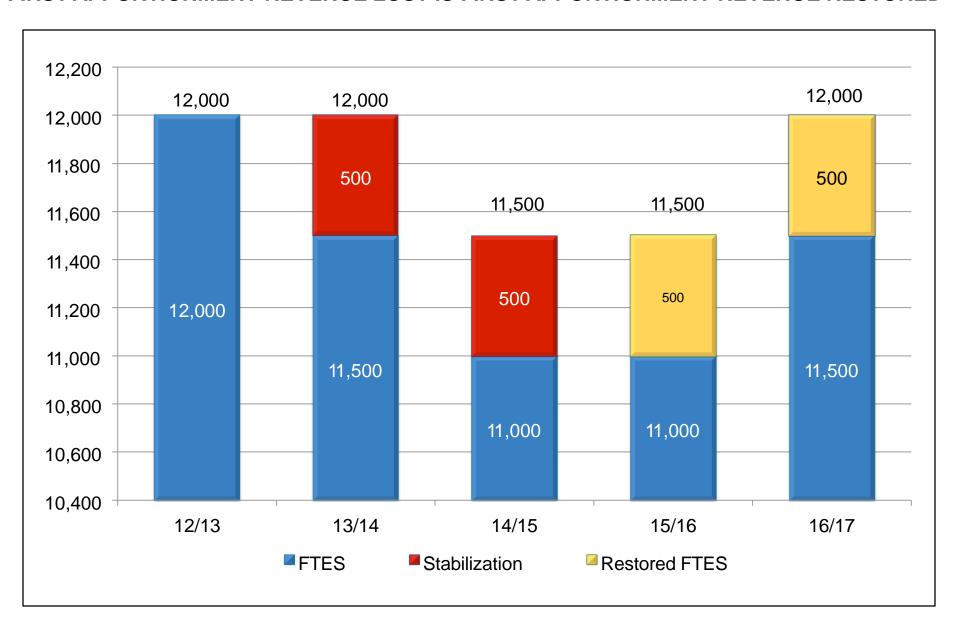

- Restoration takes place by increasing FTES but your total available restoration level is based on the previous total computational revenue amount.
- The makeup of non-credit, credit, and CDCP can change and the district can still restore to an FTES level that is equivalent to the previous revenue level. For instance you can have fewer credit and more non-credit than the district's original FTES amounts pre-stabilization

## TITLE 5 § 58777. DECLINE RESTORATION.

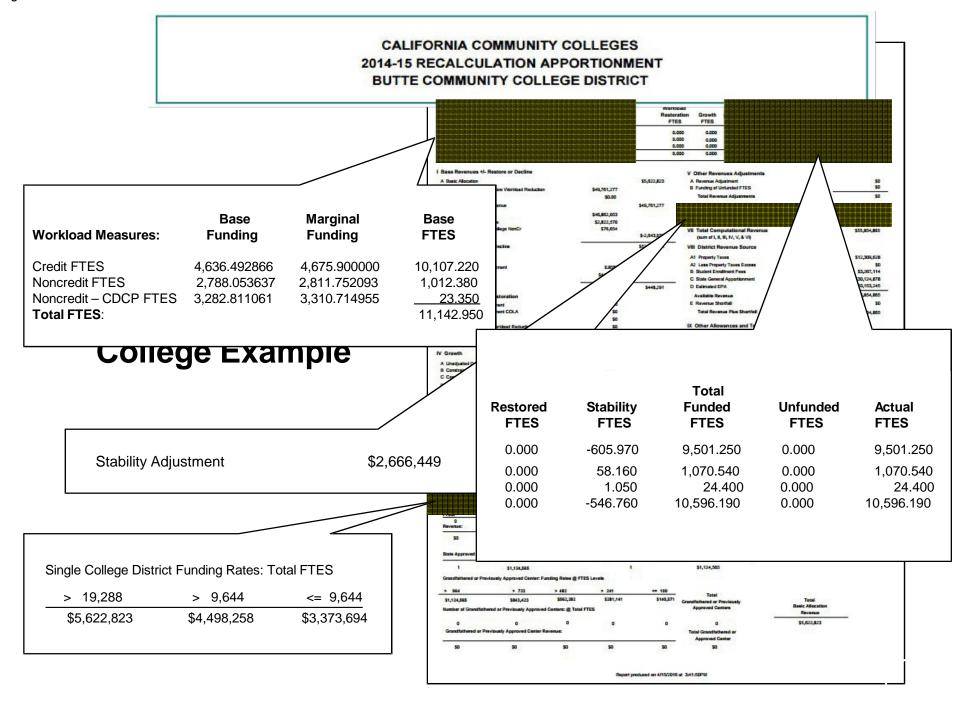

(a)Districts shall be entitled to restore any reductions in apportionment revenue due to declines in FTES during the three years following the initial year of decline in credit, noncredit, or career development and college preparation FTES if there is a subsequent increase in FTES.

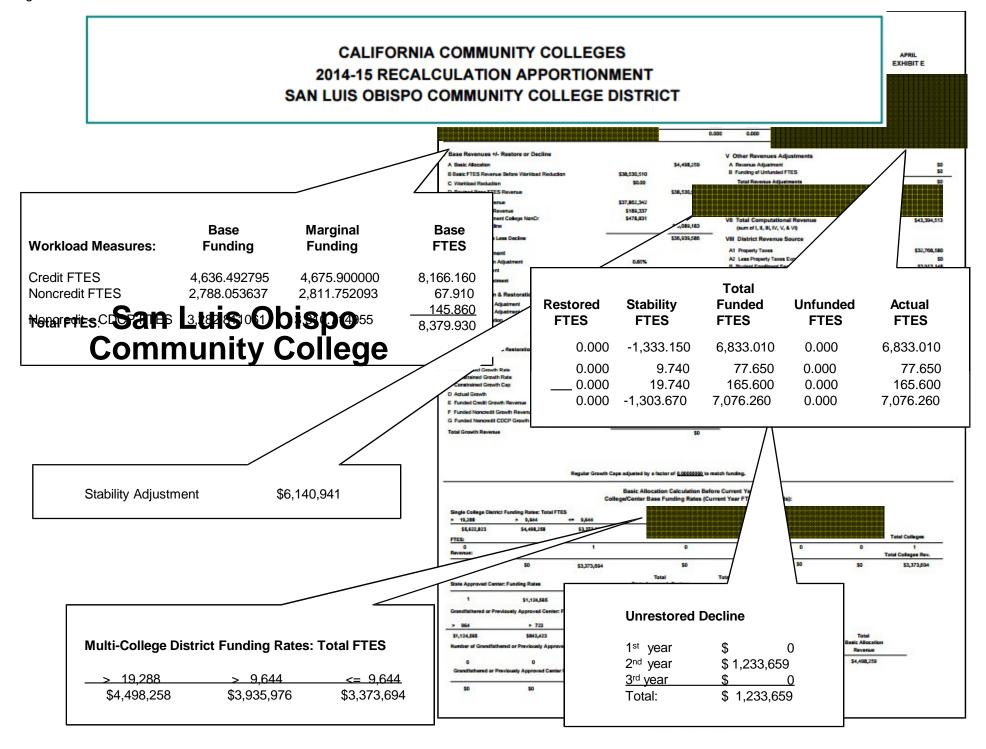

(b) Restoration of revenue for declining workload and the inflation adjustments made between the year of decline and the year of restoration shall be made at the district's current marginal growth funding rate.

## SCENARIO 3: STABILIZATION FOLLOWED BY RESTORATION FIRST APPORTIONMENT REVENUE LOST IS FIRST APPORTIONMENT REVENUE RESTORED

#### STRATEGIC FTES BORROWING

# If there are new registration regulations or other uncertainty in the coming year

- Repeatability restrictions
- Increase in enrollment fees
- Change in BOG Fee Waiver administration

### There is extra growth on the table

- 3% growth in current year, following year is less or uncertain
- Maximize growth potential

## Final year of restoration and not fully restored

Maximize your base FTES

#### **BORROWING FTES IMPLICATIONS**

- Borrowing should be done at P2 to maximize cash flow
- Borrowing can be used for growth instead of restoration, but only once if the college isn't actually growing
- Borrowing can retain the ability for the college to earn revenue that it would otherwise lose
- Using state apportionment that could otherwise go to all districts
  - Or perhaps not, if the unused funding is "swept" and used for other priorities
- State Chancellor's Office has the ability to reverse borrowing if it is detrimental to the system

### STATEWIDE IMPLICATIONS AND TRENDS

## At P-1(March revision), there were 29 districts in stability or restoring

- 16 districts on "Stability Adjustment"
  - Districts in the initial year of decline
- 13 districts on "Stability Restoration"
  - \$116.3 million earnable
  - Districts with unrestored decline

### STATEWIDE IMPLICATIONS AND TRENDS

(CONTINUED)

- "Stability Adjustment" 16 districts
  - \$105 million applied
    - This is available in 2016-17 as Stability Restoration
    - It adds to the amount leftover from 2015-16
      - $\triangle$ As of P-1 = \$56.6 million
        - \$18 million may fall off since it's older than 3 years

## STATEWIDE IMPLICATIONS AND TRENDS

(CONTINUED)

### "Stability Restoration" – 13 districts

- \$59.7 million total earned
- \$42 million provided for in the State Budget
- DOF estimates using a rolling 3-year average
- \$17.7 million will contribute to deficit factor for all districts

## 0.277% applied as deficit factor

- Unrestored decline amounts to \$56.6 million
- There was \$116.3 million in restoration available at beginning of year

### **GROWTH**

- Growth occurs after a college is fully restored or if there has been no decline
- New growth formula that places an emphasis on unmet need
- Strategies around growth
  - Will there be growth left on the table from districts not using theirs?
  - How much can the district afford to be over the funded cap?
  - Do you leave a margin for audit adjustments?
  - Are you converting from non credit to CDCP?

## STATEWIDE IMPLICATIONS AND TRENDS DEFICIT FACTORS

### Deficit factor – what is it?

- The Department of Finance budgets for property taxes and enrollment fees
- If either of those don't materialize, a deficit factor is imposed on all districts

TITLE 5 § 58779. DEFICIT MECHANISM.

In the event that State General Fund appropriations, local property tax revenues, student enrollment fees, and other local tax revenues allocated to community college districts for general operating support, are less than the amounts computed for all districts for the fiscal year pursuant to subdivision (a) of section 58770, the Chancellor shall apportion state aid by multiplying the amount computed for each district pursuant to subdivision (a) of section 58770, by the ratio of the statewide total revenue available for purposes of subdivision (a) of section 58770, to the statewide total calculated amount for purposes of subdivision (a) of section 58770.

Deficit factors result from shor1alls in property tax, enrollment fees, or other revenues at the state level that impact Proposi9on 98 funding. The final deficit factor for the district will be included in the recalcula 9 on appor9onment (R1) that is typically released in February in the calendar year following the end of the previous fiscal year (or 19 months a"er the start of the previous fiscal year). The deficit factors shown on the next few slides are taken from the latest version by period off the California Community College Chancellor's Office website.

#### **Fiscal Resources Committee**

Executive Conference Room – District Office 1:30 p.m. – 3:00 p.m.

#### Meeting Minutes for September 28, 2016

**FRC Members Present:** Michael Collins, Arleen Satele, Steven Deeley, Mary Mettler, Pilar Gutierrez-Lucero, Adam O'Connor, Lee Krichmar, Maria Gil and Morrie Barembaum

**Alternates/Guests Present:** Esmeralda Abejar, Jim Kennedy, Jose Vargas, Richard Kudlik and Elliott Jones

- 1. Welcome: Mr. O'Connor called the meeting at 1:33 p.m. Committee members were introduced.
- 2. Committee Faculty Co-Chair Appointment O'Connor The committee discussed Dr. Mary Mettler continuing as the Co-Chair to the FRC. A motion was made by Mr. Deeley, seconded by Dr. Collins and approved unanimously.
- 3. State/District Budget Update O'Connor
  - Board of Trustees PowerPoint presentation on the 2016-17 Adopted Budget is available on the District website for review as is the 2016-17 Adopted Budget
  - Campus Reserves Breakdown: Fund 11 total carryover for SAC is \$11.6 million, SCC has a carryover of \$775,000. Page 38 of the Adopted Budget shows the beginning fund balance at \$8.9 million which is the 5% reserve per Board policy; \$13.6 million in budget stabilization fund, unchanged from previous year and the District Office has zero carry over. Dr. Collins provided the committee a break-down of how the SAC fund balance grew from \$2.5 million in the previous year to \$11.6 million.
  - Community College Update How Do We Locally Determine an Adequate Reserve Level: Why would it be beneficial to the district to increase the 5% reserve; factors were highlighted in the article. Expenses continue to grow \$5-8 million per year, without growth the district will continue to deficit spend and the budget stabilization fund will be depleted within the next few years.
  - What Happens if Prop 55 Passes? Prop 30 will expire at the end of this year. At this time the effects of Prop 55 are unknown.
- 5. Multi-year Projections (MYP) O'Connor Mr. O'Connor reviewed eight multi-year projections ranging from the a best to worst case; scenarios included growth up to 1%, another with a 2% decline, but adding back, and others flat. Scenarios also included cost increases for various expenses. It was noted that the 17-18 calendar year has only a 3.5% increase to health benefits. Mr. O'Connor asked the committee for feedback on the scenarios and if the committee would like to see more versions with additional scenarios. One additional version was suggested that includes a 2% decline in FTES in 16/17, full restoration in 17/18 and meeting our growth cap of approximately 0.60% in the out years, along with a 3.5% increase to health and welfare.
- 6. BAM Language Subcommittee O'Connor

Mr. O'Connor reminded the committee that the sub-committee recommended reconvening in October of this year to continue discussion on the Budget Allocation Model language. The subcommittee members for this round of meetings are Adam O'Connor, Arleen Satele, Dr. Collins, Jose Vargas, Jim Kennedy, Maria Gil, Richard Kudlik and Steven Deeley. The members will meet in the near future and will bring back any recommendations to the full committee.

#### 7. Informational Handouts - Hardash

- District-wide expenditure report link: https://intranet.rsccd.edu
- Vacant Funded Position List as of September 6, 2016
- Measure "E" Project Cost Summary as of August 31, 2016
- Measure "Q" Project Cost Summary as of August 31, 2016
- Year-End Monthy Cash Flow Summary as of June 30, 2016
- Monthly Cash Flow Statement as of August 31, 2016
- 8. Approval of the FRC Minutes July 6, 2016 O'Connor Mr. O'Connor asked for a motion to approve the Fiscal Resources Committee Minutes of the July 6, 2016 meeting. A motion was made by Dr. Mettler, seconded by Dr. Collins and approved unanimously.

#### 9. Other:

Mr. Kudlik updated the committee on the 2015/16 actuals for the 50% law calculations and reported out that SAC's percentage is at 65.8% from 62.9% and SCC is at 57.8% from 54.3%. In 2012/13 in total the district was at 50.09%; 2013/14 - 50.18%; 2014/15 - 51.38% and in 2015/16 - 52.55%. The increase in faculty hiring in the last two years has increased the percentage. It is estimated that we would remain at the same level in 2016/17.

Next meeting: Wednesday, October 19, 2016, 1:30 – 3:00 in the Executive Conference Room, District Office.

The meeting was adjourned at 2:16 p.m.
