Eligibility for Medical/Dental/Vision

Eligible Employees

As an eligible new hire, you may participate in the Medical/Dental/Vision benefits on the first day the month following your date of hire. You will enroll thru our online database system “AFenroll”.

Eligible Dependents

- Your natural, step or adopted children if they are under the age of 26, regardless of marital status, financial dependency, in school or armed forces.
- Grandchildren are only eligible if you are the Court appointed legal guardian
- Children over age 26 who are disabled and depend on you for support.
- Your legal spouse
- Your registered domestic partner

RSCCD does not permit “double coverage”. If you, your spouse or a parent are both employees of RSCCD you may not elect coverage as both an employee and a dependent.

It is the employee’s responsibility to notify the District should one of your dependents no longer be eligible for coverage

Proof of Eligibility:

When adding a dependent to your insurance coverage, you will be required to provide original and/or certified copies of one or more of the following:

- Spouse-Certified Marriage License and recent Federal Tax Return page displaying Marital Status.
- Domestic Partner—Proof of Domestic Partnership Registration with the State of California @ www.sos.ca.gov/dpreqistry/
- Children– Certified Birth Certificate or Court Adoption Documentation.
- Social Security Numbers are also required
- Federal Income tax return (Page 1 of year prior to enrollment)

Important information should you choose to decline coverage

If you want to *decline* health coverage for yourself and/or dependents, you must log into AFenroll to select “Waive coverage.” *If you decline coverage/for any reason other than having other health insurance coverage*, you and/or your dependents will not be able to enroll until the next annual enrollment period.

If you **decline** enrollment for yourself or your dependents because of other health insurance coverage, you may in the future be able to enroll yourself or your dependents in a District sponsored plan, provided that you request enrollment within 31 days after your other coverage ends. *You and/or your dependents will be considered “Special Enrollees.”* In addition, if you have a new dependent as a result of marriage, birth, adoption, or placement for adoption, you can enroll your dependent (s) within 30 days after the marriage, birth adoption, or placement for adoption.

This is a summary of the plan details. In the event of any discrepancy between this summary and the provisions of the specific insurance contracts, the provisions of the contracts shall apply.

Life Event Changes

Changes to Enrollment

- **Change in work schedule**, including an increase or decrease in hours of employment by you, your spouse, or your dependent child, including a switch between part-time and full-time employment that affects eligibility for benefits.
- **Change in a child's dependent status**, either newly satisfying the requirements for dependent child status or ceasing to satisfy them.
- **Change in place of residence or worksite**, including a change that affects the accessibility of network providers.
- **A court order** resulting from a divorce, legal separation, annulment or change in legal custody (including a Qualified Medical Child Support Order) requiring coverage for you child.

Navitus has an extensive network of pharmacies in their program. Most independent pharmacies and pharmacy chains (except Walgreens) participate in their network so you probably won't have to switch pharmacies. There is a complete list of participating pharmacies on their website, <https://www.navitus.com/members/pharmacy-directory.aspx> If you use the pharmacy at Costco (you don't have to be a member. Just tell the person at the door you are there to use the pharmacy) your generic medications are free. **There won't be a co-pay.**

Getting your Drugs through Mail Order

Costco Mail Order Pharmacy will service your mail order needs. It is an easy way for you to get a 90-day supply of your long-term or maintenance medications. For drugs needed on a short-term basis (e.g., antibiotics for short-term illness), we recommend using a retail pharmacy.

Fax: 1-888-545-4615

E-prescribe

Costco Pharmacy will begin processing your order once you have placed a request and the original prescription is received at their facility.

Using Your Medical Benefit ID Card

You will not need a separate pharmacy benefit ID card. Your medical benefit card also contains information about your pharmacy benefit. After July 1, just present your medical benefit card to the pharmacy when you refill your prescription. To determine your copayment before going to the pharmacy, call Navitus Customer Care number on the back of your card toll-free.

Or

- Enroll in the auto refill program online. Average process and shipping time is 6 to 14 days. Costco offers free standard shipping. Expedited shipping options are available for an additional fee.

Tips on Getting the Most Value From Your Medical Plan

1. Ask Questions

If you are having a procedure or planning an upcoming procedure, make sure you know how the procedure will be covered and what your out-of-pocket cost will be if any.

2. Utilize Your Free Preventive Care Benefits to Stay Healthy

Preventive care benefits are covered at no charge to you when accessed from in-network providers. Regular preventive care can reduce the risk of disease, detect health problems early, protect you from higher costs down the road, and may even help save your life.

What's the difference between preventive care which is free and diagnostic care which you share the cost for in the form of copays and/or coinsurance? Preventive care helps protect you from getting sick, while Diagnostic care is used to find the cause of existing illnesses. For example, say your doctor suggests you have a colonoscopy because of your age then you have not symptoms. That's preventive care. On the other hand, say you have symptoms and your doctor suggests a colonoscopy to see what's causing them. That's diagnostic care.

3. Get the Right Health Care and Save Money

Choosing the right care for your medical situation will help save you money out-of-pocket:

- **Doctor's Office Visit:** This is the best choice for non-urgent medical issues.
- **Urgent Care:** This is the best choice for non-life threatening medical issues that require immediate care when you can't get an appointment for a Doctor's Office Visit.
- **Emergency:** You should use the Emergency Room for life threatening emergencies, or for other issues that require immediate medical care outside Urgent Care hours.

4. Use Generic and Over-the-Counter Drugs When Available

The best way to save on prescriptions is to use generic or over the counter medications as opposed to brand name drugs. When you use generic medications, you will pay the lowest copay.

Why are generic drugs less expensive? Generic drug companies do not have to develop a medication from scratch, so the costs are significantly less to bring the drug to the market. Once a generic medication is approved, several companies can produce and sell the drug. This competition helps lower prices. In addition, many generic drugs are well-established medications that do not require expensive advertising. Generic drugs must use the same active ingredients as the brand name version of the drug. A generic Drug must also meet the same quality and safety standards.

5. Use the Mail Order Prescription Drug Benefit for Maintenance Medications

As a Anthem Blue Cross member, you can receive a 90 day supply of your maintenance medications for the cost of only 2 copays (compared with a typical 30 day supply for a single copay) at your walk-in pharmacy. In addition, your medications will be delivered to your home.

As a Kaiser member, you can receive a 100 day supply of your maintenance medications for the cost of only 2 copays.

Tax Sheltered Annuities

In addition to your primary retirement benefits through your pension, RSCCD gives you the option to set aside even more money for your retirement. You can make pretax contributions to either a 403(b) plan or a 457(b) plan —and save more for your future with tax advantages. These types of plans are also referred to as Tax Sheltered Annuities (TSA).

What is a 403(b) or 457(b) and a Roth 403 (b)?

403(b) and 457(b) refers to IRS code sections and they are both tax-deferred (pre-tax) retirement savings plans made available to employees of schools and governmental organizations. Contributions to the plans are invested in mutual funds, bond funds, annuities, or other investment vehicles and grow tax free until withdrawn.

RSCCD also offers an after-tax 403(b) called the Roth 403(b): The Roth 403(b) plan allows you to save part of your income on an AFTER-TAX basis. Generally, earnings in the Roth 403(b) plan are not taxable upon withdrawal as long as you've held the account for at least 5 years and are over the age of 59 ½. The benefit of the Roth 403(b) is potential tax-free growth.

What does "tax deferred" mean?

Under a tax-deferred retirement plan, you are not paying taxes on your contribution or investment earnings now, but are delaying any possible tax liability until you retire (or withdraw money from your 403(b) account). Depending on your future tax bracket at time of withdrawals, this delay could result in much less tax liability.

Eligibility

All employees who receive compensation reportable on a W-2 are eligible to participate in the plan. You cannot be excluded from participation unless one of the below exclusions apply:

- Employees who are non-resident aliens;
- Employees who are students performing certain services
- Employees who normally work fewer than 20 hours per week

What is the benefit of enrolling in a TSA?

Both plans are designed to let you save for your future with tax advantages. Your contributions come out of your paycheck before taxes, so it costs you less to save for your future. For example, when you contribute \$100 in the 403(b) Plan or 457(b) Plan, it really only costs you \$75 out of your paycheck (assuming a 25% tax bracket). Why? Because you pay \$25 less in income taxes today. And that means more of your money goes to work for you.

Studies suggest that up to 80% or more of current income may be needed annually to live close to the same lifestyle at retirement. School employees contribute to their pension plans through CalSTRS or CalPERS and a common misconception is that their pension plan will replace 100% of income in retirement. On average, CalSTRS and CalPERS replaces between 50-65% of income. The difference needed to meet your retirement goal can be supplemented by contributing to a 403(b), Roth 403(b), or 457(b) plan.

How Do I Sign Up?

Schools First Credit Union is our Plan Administrator for all TSA accounts. As the leading Third-Party Administrator of retirement plans for school employees, SchoolsFirst has served the educational community for more than 30 years. They provide retirement plan administration services for 403(b), Roth 403(b), 457(b) and FICA Alternative plans to more than 300 California school districts and eight county offices of education.
