REQUEST FOR QUALIFICATIONS #1415-91

Solar Photovoltaic Program

Addendum #2

February 25, 2015

The following changes, additions, deletions or corrections shall become part of the Request for Qualifications for Solar Photovoltaic Program

1. **Question:** Please provide 12 months of electric bills for all meters/locations that will potentially be served by this project.

Answer: Refer to the attached document that includes the RSCCD Bill History for 2013.

2. **Question:** Please provide 15-minute interval consumption data for all meters/locations.

Answer: Refer to Item 1 response above.

3. **Question:** Will EV charging capabilities be required?

Answer: Provide capability for EV charging stations at the campuses.

4. **Question:** Will the Solar PV system be capable to connecting to engine generators and other inverter based renewable resources and energy storage systems in a microgrid arrangement?

Answer: As part of the innovative approach to renewable energy systems that the District is seeking with this RFQ, the Contractor shall provide the capability to connect to engine generators and other inverter based renewable resources and energy storage systems as part of a microgrid system for the District's review.

Contractor shall provide documentation that identifies the concept will address solutions to improve energy security, performance of the Solar PV system, and overall stability of the energy source to the campus.

Contractor shall provide a client reference for one microgrid project of similar scope. References shall include a brief description of the project, client name and address, telephone number, and email address.
