

**REQUEST FOR QUALIFICATIONS/
REQUEST FOR PROPOSAL
#1314-38**

**LAND SURVEYING CONSULTING SERVICES
FOR
RANCHO SANTIAGO COMMUNITY COLLEGE DISTRICT
and
SANTA ANA COLLEGE – 17th Street & Bristol Street**

Addendum #1

The following changes, additions, deletions or corrections shall become part of the Request for Qualifications/Request for Proposal for the Land Surveying Consulting Services

Additional Scope

Central Plant – Survey Verification and Civil

1. Survey crew needs to verify horizontal and vertical control of client provided survey data. The consultant cannot take “ownership” of any survey information without this.
2. Additional survey needed for joint conditions:
 - a. Along southerly side of Campus Drive at Tennis Courts
 - b. Triangular area west of Tennis Courts
 - c. Triangular area between Tennis Courts and Softball Field (Detention Area)
 - d. Rectangular area east of Softball Field, west of Parking (Detention Area)
3. Some survey data shown in these areas are labeled “as designed”. Need to verify if elevations construction match design data.

Additional Services to provide

1. The consultant will provide surveying service to verify the survey control as provided by the District. If provided control deficient or not consistent with the existing aerial control and/or school basemap, the consultant will discuss its findings with the District.

Should additional office research and field work be required, this work shall be considered “Additional Work” and shall be approved with the District prior to commencing said work.

It is also to be assumed that the datum of the survey work (basis of bearing and benchmark) will be provided by the District upon receipt of the survey control.

2. The consultant will provide topographic surveying services to densify the existing central plant area topo. Existing improvements and natural ground conditions shall be sufficiently located to facilitate in the Engineering design.
