The Rancho Santiago Community College District (RSCCD) is the 4th largest college district in the state, serving Santa Ana, Garden Grove, Anaheim Hills, Tustin, Orange, Villa Park and portions of Irvine. The district includes: Santa Ana and Santiago Canyon Colleges; the Anaheim Hills, Orange and Centennial Education Centers; the Digital Media Center, Regional Fire Technology Center and the Orange County Sheriff’s Regional Training Academy – satellite facilities of Santa Ana College. The college district serves about 53,000 students on the two main campuses and more than 20,000 students at the education centers. Moreover, RSCCD is one of the largest employers in central Orange County with more than 4,000 employees.

RSCCD prepares students for university transfer and to earn two-year associate degrees or professional certificates. Last year, 2,347 students transferred to University of California and California State University campuses. Nearly 2,800 students earned associate degrees or professional certificates.

In addition, the college district plays an important role in economic and workforce development by offering an array of free or affordable educational opportunities to small business owners and entrepreneurs. Learn more by visiting www.rsccd.edu.

Independent Fiscal Oversight
Bond Oversight Committee

Under Proposition 39, all expenditures are reviewed by an independent Bond Oversight Committee appointed annually by the Board of Trustees to ensure all expenditures are directed to new construction and facility improvements. Committee members serve as volunteers, are not compensated for their service, may serve two-year terms but may not exceed two consecutive terms. No committee member may be an employee of the college district or officials, vendors, contractors, or consultants of the college district. By law, the committee must include a representative from a taxpayers association, a member of the business community, an active member of a senior citizen’s organization, an enrolled student in the college district, a member of the college district’s foundation or another support organization, and two members representing each college from the community at large.

Bond Oversight Committee meetings are held three times per year and are open to the public. Learn more about Prop 39, the Bond Oversight Committee, upcoming public meetings and current bond projects at www.rsccd.edu.

Measure E
Your tax dollars at Work

In 2002, voters overwhelmingly supported the passage of Measure E, a $337 million general obligation bond for new construction and facility modernization. All facilities priorities are identified and prioritized by campus-level facility committees, composed of faculty, students, staff and administrators. Through the college district’s governance structure, campus priorities are reviewed by the district construction committee and formally approved by the Board of Trustees.
As the leading providers of workforce training in the region, our local community colleges continue to hold the key to the economy recovery of Orange County. Modern facilities, equipped with industry-current equipment and resources, are essential for ensuring our students transfer successfully to four-year institutions, earn professional certificates, or obtain the skills needed for career advancement and job security. Your support of Measure E has enabled the college district to improve facilities and expand access to technology at both campuses.

As the chairperson of the 2008 Bond Oversight Committee, I am pleased to report that all modernization and new construction projects continue to progress on schedule. The district continues to look for ways to stretch limited local bond dollars by seeking state funding and forging innovative partnerships. Moreover, the annual financial and compliance audits confirm that all Measure E funds are being used for appropriate new construction and modernization projects. The college district continues to deliver on its promise to voters to complete the facility master plans at each campus so that our community and students benefit from modernized facilities.

Sincerely,

Darin Woinarowicz
Chair
Bond Oversight Committee

2008 Achievements

Classroom building: Work continued on a two-story, 16,000-square-foot science center at SCC slated to open in fall 2009.

Modernization and renovation: Modernization was completed on Phillips Hall, the art building, the art gallery, Dunlap Hall, some restroom facilities, and Johnson Center. Work continues on the installation of an upgraded fire alarm and emergency public address system.

Science Center: Work completed on a 60,000-square-foot science center at both campuses. Santiago Canyon College (SCC) dedicated its new field in January 2009. SAC will open its field and adjoining facilities in March 2009.

Coastkeeper Demonstration Garden: Grading and infrastructure improvements were completed on the Coastkeeper Demonstration Garden, which was planted in fall 2008 with indigenous plants for an outdoor laboratory.

2009 Priority Projects

- Child Development Center - Construction is slated to begin in 2009.
- Science Building - Approved to receive state funding in 2010-11 if voters approve another statewide facility bond.
- Russell Hall - An initial project proposal will be submitted in an attempt to secure state funds to complete renovation efforts.
