The proposed 2011-12 TAG meeting schedule was approved unanimously as presented.

Discussion
- iPad / iPod Applications
  - Laura Bennett (Purchasing) discussed a pilot project that Nicholas Quach and she had been working on. The pilot involves buying application vouchers from Apple to be used on iTunes for the purchase of applications for District iPads and iPods.
  - District iPads and iPods are tagged and tracked, even though they are not an “inventory-able asset.”
  - iPads and iPods can have up to five iTunes accounts “attached” to them.
  - With Apple’s voucher program, there is an account facilitator. It was suggested that for security and tracking purposes, that there just be one facilitator for each campus. The facilitator is responsible for adminstering the voucher program and the purchase of Apple applications.
  - Discussion ensued as to whether or not users should be allowed to download applications, if applications purchased by end users should remain property of the District, whether or not the District should reimburse end users for purchased applications, if the purchase of iPads and iPods should be left to the discretion of the Colleges, and is there a curriculum based reason for the purchase of iPads and iPods.
  - Sylvia LeTourneau and ITS will work with Purchasing and Accounting to establish procedures for the purchase of tablet applications, as well as use guidelines.
- Future Technology
  - Topic postponed until next TAG meeting.
- Social Media
  - The Social Media sub-committee expects to have a rough draft of the guidelines ready for review by the TAG Committee in the early fall.
