Rancho Santiago Community College District, OC Hispanic Chamber of Commerce, and SoCal Reinvestment CDFI Unveil OC Microloan Alliance

WHAT
The OC Microloan Alliance—including three key partners Rancho Santiago Community College District (RSCCD), the Orange County Hispanic Chamber of Commerce (OCHCC), and SoCal Reinvestment CDFI—will unveil the new OC Microlending Program. The program will make microloans ranging from $2,000 to $30,000 available to Orange County entrepreneurs and small business owners. Microloans will be available to start-up, newly established, or growing businesses.

Through the program, the OCHCC, will market and be the first point of contact for small businesses and microenterprises interested in a microloan. Those that need training or one-on-one consulting in order to get the loan will then be referred to the Orange County Small Business Development Center (Orange County SBDC), an economic development program of RSCCD. The Orange County SBDC will guide small business owners through the pre-loan process to ensure that all key loan requirements are met. The loan package will be reviewed by SoCal Reinvestment, the microloan underwriter, and qualification for funding will be determined. Once microloans are granted, the Orange County SBDC will continue providing business consulting services and resources for the first year of the loan to boost business success.
