AR 4026 Philosophy and Criteria for International Education

Reference(s):

Education Code Section 66015.7

International education should encourage programs that support learning about other cultures, global issues, and the exchange of Californians and international students and scholars, such as:

- Develop courses of study in as many fields as possible to increase students' understanding of global issues and cultural differences.
- Offer courses in languages other than English to train students to communicate effectively in other cultures and to enhance their understanding of other nations' values.
- Explore opportunities for students to participate in study abroad programs to enrich their academic training, perspectives, and personal development.
- Provide opportunities for domestic and international students to interact effectively and routinely share their views, perceptions, and experiences in educational settings.
- Provide opportunities for students to explore global issues and showcase world cultures.

For international students and scholars,

- Encourage the presence of qualified students from other countries with sufficient geographic diversity to inspire an appreciation for differences among cultures and a deeper understanding of the values and perspectives of other people.
- Facilitate faculty exchange and collaborative partnership programs with institutions in other countries.
