2.0 INFORMATIONAL ITEMS AND ORAL REPORTS

   Dr. Erlinda Martinez, President, Santa Ana College
   Dr. John Weispfenning, President, Santiago Canyon College

Dr. Martinez reported that after months of preparing for the accreditation team’s visit to the college, she was given five minutes to address the Commission. She stated that the presentation was crucial in giving the accrediting commission something to consider regarding the accreditation status for SAC. She believes the exit report was more favorable than the written report that was received, and it was worth the time/expense of the trip to present evidence of the facts, and render her professional opinion as someone who has been

with institutions for over 30 years. Dr. Martinez indicated that the commission will advise the college of its accreditation standard by the end of January or beginning of February. She reported that her testimony will be posted on the SAC website under accreditation standards.

Dr. Weispfenning reported that he addressed the Commission last week by expressing his concern over inconsistencies in the accreditation teams’ report and the inconsistent interpretations of technical issues. He indicated that the Commission asked targeted questions at the end of his presentation. He noted that Dr. Martinez and he did not discuss their presentation beforehand, but afterwards, they discovered both presentations were in alignment with one another. He is hopeful that the outcome will be reaffirmation of accreditation, but if it is a warning, staff is confident that they will be able to take care of any issue within the one-year timeframe.

College. The annual report is based upon college data submitted to the state through the Chancellor’s Office management information system. Dr. Lundquist reviewed the background of the report including Assembly Bill 1417 and legislation authorizing the California Community Colleges Chancellor’s Office (CCCCO) to design and implement a performance measurement system. The outcomes of the report are for the system as a whole and for individual colleges, but do not rank colleges. The report is available to the public on the CCCCO website. Dr. Lundquist, Mr. Torres, and Mr. Voelcker reviewed the information provided for each college including a description of the college; annual unduplicated headcount of students, gender, age, and ethnicity of students; full-time equivalent student information (FTES); course sections (credit and non-credit); median credit section size; the percentage of full-time faculty; and student counseling ratio. They also reviewed the five performance indicators: (1) remedial, (2) persistence, (3) 30+ units, (4) completion, and (5) career technical education, and data for each indicator as described according to those who are “prepared” and those who are “unprepared” for college work.

Ms. Barrios asked for clarification of the meaning of “4 levels below” pertaining to English, math, and English as a Second Language (ESL) courses for the remedial education progress rates. Mr. Voelcker indicated that it means four levels below college level.

Mr. Labrador asked for clarification of “unprepared.” Mr. Voelcker indicated it stands for the students who are not taking college-level courses, but the lowest level of math/English courses.

Ms. Barrios asked if Mr. Voelcker was surprised that the data from both colleges was almost identical. Mr. Voelcker indicated he was not surprised since last year’s figures were similar.

Ms. Alvarez asked if the persistence figures increase every year. Mr. Voelcker indicated that last year’s cohorts pertained to a different time period (2007/2008 to 2013/2014); therefore, the figures would not increase every year. He stated that the State Chancellor’s Office began defining the metrics for use with the 2013 and 2014 scorecards, and it is possible to review data as far back as 2003/2004. Mr. Voelcker reported that overall the district has improved its scorecard figures.

In response to Ms. Alvarez earlier email request regarding ways the colleges are trying to improve the success rate in the areas that need the most improvement, Mr. Torres stated that the colleges use many strategies, such as accelerating entry into a particular program of study; minimizing the time necessary for students to become college-ready; ensuring students know the requirements needed for their course of study; customizing and contextualizing instruction; integrating student support with instruction or academic affairs; monitoring student progress; alerting students when

they are not doing well through systems such as “Early Alert;” rewarding behaviors that lend support and promote completion; and utilizing technology to promote and support instruction to ensure that RSCCD students are successful.

The Student Success Scorecard is one tool, among many, that the district uses to assess the effectiveness of its institutions. The district also uses comprehensive and continuous assessment which includes data from different local sources and different perspectives, such as on-going classroom assessment; on-going planning and program review; and on-going research conducted by the District Research Department.

Ms. Alvarez asked how the colleges are publicizing the accolades of student success at the colleges. Mr. Torres indicated the SAC Academic Affairs website is being renovated to include updates to the departments’ pages and student success information. In addition, staff is working with the public relations department at the district to publicize student opportunities. He explained that due to limited marketing funds, other ways to reach the community involve the ¡Adelante! and Freshman Experience programs with Santa Ana Unified School District.

Mr. Yarbrough asked what the legislature plan to do with the information on the student success scorecard. Dr. Lundquist indicated the scorecard results challenge districts to apply resources in the best possible way for student success. Mr. Yarbrough asked if the legislature is comparing the results of the student success scorecard with other districts, and if so, how does RSCCD compare to other college districts? Dr. Lundquist indicated SAC and SCC perform above the statewide average in the student success scorecard.

Referring to the Remedial ESL figures given in the presentation, Mr. Yarbrough asked if demographics are considered regarding the difference in ESL figures at SAC (25.2%) and SCC (66.7%). Mr. Voelcker indicated the expansion of the cohort term may be an explanation of the high figures for SCC. In the past the Accountability Reporting for the Community Colleges report used a 3-year period and the scorecard uses a 6-year period. Mr. Voelcker stated next year the scorecard will include the number of students within the cohort. Since the SCC population for non-credit ESL has dwindled at SCC, another explanation for the large fluctuation in numbers is the sample size.

In response to Mr. Yarbrough’s inquiry regarding the legislation, Mr. Torres indicated that AACJC requires colleges to set “institution set standards” for terms of success, completion, persistence, and the number of students that have completed the CTE programs and secured jobs in their respective fields.

Mr. Solorio indicated he was in the legislature when the Student Success Scorecard was approved and it was hopeful that this scorecard would increase the efficiency in taxpayers’ dollars being spent wisely. He reported other items were included in the legislation such as creating priority enrollment for veterans/others and the advantage of districts throughout the state collaborating on best practices from each district to better serve students and taxpayers.

Mr. Solorio reported he was recently appointed to the California Student Aid Commission and offered his services regarding Cash for College, Cal Grants, etc.
5.6 **Board Member Comments** – (cont.)

From Trustee John Hanna

4.15(4) 15-P0034160 $12,000 for Nixon Peabody. What was this legal expense? What office is handling this for the firm?

- Nixon Peabody is the district bond counsel for Measure Q bonds. The U.S. Securities and Exchange Commission’s (SEC) Municipalities Continuing Disclosure Cooperation (MCDC) Initiative, launched in March of 2014, required municipal bond issuers and underwriter’s to self-report any past violations of Rule 15c2-12 (continuing disclosure requirement). Through the MCDC initiative, the SEC offered amnesty for entities that self-report past violations by the deadline of December 1, 2014. The district engaged the services of Nixon Peabody to review all Measure E bond issuances and refundings to evaluate and verify continuing disclosure compliance and the need to report any deficiencies to the SEC. As bond counsel, they coordinated their evaluation with The Dolinka Group evaluation in reviewing and verifying any reportable items and any disclosures that were necessary in the Official Statement for the issuance of Series A of Measure Q bonds. The legal services necessary in reviewing and researching all Measure E bonds and refundings were outside of the scope of work included for bond counsel services for Measure Q. The purchase order was issued in the amount of $12,000. The cost of this service, year to date, was $6,119.50.

Lisalee (Lisel) Wells from the Los Angeles office services as bond counsel to the District.
