EL Civics Objective 26.3 - Health Level: Advanced Low/High ADV

Task 1: Find information on low-cost health care

CIVIC OBJECTIVE

Identify and access free or low-cost medical, dental, and other health care services.

LANGUAGE & LITERACY OBJECTIVES

In this lesson, students will learn to:

2. Identify low-cost health care or health care services (e.g., substance abuse, etc.) in the community.
6. Ask/answer simple questions about services and hours of local health agencies.

ASSESSMENT TASK – 14 points possible

Using sources such as the internet or teacher generated list, etc., student will identify a level-appropriate number of agencies (ADV=5) that are related to low-cost health care such as community clinics, hospitals, and/or mental health centers. Student will complete a chart listing each agency with level-appropriate items such as name, phone number, address, services provided, eligibility requirements, and documentation needed.

3. Can he get health insurance?

Possible answer: Yes, he can apply for health insurance. He may qualify for free health insurance

Task 2 – Handout 4

Introduction: Applying for Health Insurance

Having health insurance in the United States is important because:

- it will protect you and your family from high medical bills and debt.
- it can help you and your family stay healthy.

If you don't have health insurance, there may be a low-cost or free clinic near your home. Look at the list of health care services on previous pages of this packet. Find the phone number of a clinic near your house and call to see if you can get help there. Sometimes you need to wait a few weeks for your first appointment because the clinics are busy.

The best way to pay for health care is to have health insurance.

You can apply through Covered California at CoveredCA.com

Or call: 1-800-300-1506

Covered California is the place where individuals and families can get low-cost health insurance in California. With just one application, you'll find out if you qualify for free or low-cost health insurance.

Option 1: Medi-Cal Program

This is a state-run program for low-income individuals and families. If you qualify (your income is below a certain level), you will get free health insurance.

Option 2: Covered California

This is an online marketplace where you can buy private insurance. Financial help is available to many middle and lower income individuals.

Income: money that is earned from work

You may need to have information about your income to apply for health insurance.
