Semester/Year:					Semester/Year:		
Institutional SLO	Course SLO	Method of Assessment	Outcomes	Plan for Implementation	Reassessment	Outcome	Plan for Implementation
Formerly known at SAC as a “Core Competency” but the language used by the AACJC is “Institutional SLO.” Same thing, new name.	Each course should have 2 (or maybe 3) of these that relate directly to the distinct outcomes for the course. The course SLOs should answer the question, “What, <i>specific to this course</i> , do we want students to <u>know</u> and be able to <u>do</u> when they leave this class?”	What did you do to assess the SLO?	What were the results of the assessment? Give specifics.	Based on the outcomes of the assessment, what changes (if any) will you make to the course?	What did you do to assess the course after the modifications were implemented?	What were the results of the assessment? Give specifics.	Based on the outcomes of the assessment, what changes (if any) will you make to the course?
