ESL306 : Advanced High

General Information

Author:	• Rita Van Dyke-Kao
Course Code (CB01) :	ESL306
Course Title (CB02) :	Advanced High
Program:	ESL Integrated*
Proposal Start:	Summer 2022 -Continuing Ed.
TOP Code (CB03) :	(4930.87) English as a Second Language–Integrated
CIP Code:	(32.0108) Developmental/Remedial English
SAM Code (CB09) :	E - Non-Occupational
Distance Education Approved:	Yes
Is Distance Education Course:	Yes
Course Control Number (CB00) :	CCC000628228
Curriculum Committee Approval Date:	11/29/2021
Board of Trustees Approval Date:	12/13/2021
External Review Approval Date:	12/27/2021
Course Description:	Prepares students for academic and workforce success and civic participation. Emphasizes high-level language skills, conversations that convey complex thought patterns, and reading and writing strategies. This course uses authentic academic, informational, and technical reading materials that expand the use of creative and critical thinking skills. Five high school elective credits may be granted upon passing the course. Open Entry/Open Exit.
Submission Rationale:	Improvement to Program of Study Change to Content Revise Content; add range of hours CEC is also updating their hours to include a range of hours.

Course Development Options

Basic Skill Status (CB08)

Course is a basic skills course.

Course Special Class Status (CB13)

Course is not a special class.

Grading Criteria

- Pass/No Pass
- Satisfactory Progress
- Other: (P) PASS: The student has demonstrated proficiency in the learning outcomes of the course as evidenced by an average score of 70% or higher using various methods of evaluation/multiple measures. (SP) SATISFACTORY PROGRESS: The student has demonstrated proficiency in some of the learning outcomes of the course as evidenced by an average score of 60-69% using various methods of

evaluation/multiple measures. (NP) NO PASS: The student has not demonstrated proficiency in the learning outcomes of the course as evidenced by an average score of 0-59% using various methods of evaluation/multiple measures.

Learning Outcomes
Course Objectives
Identify a speaker’s purpose, point of view, use of evidence, and points of emphasis.
Actively participate in conversations in complex situations.
Use critical thinking skills in reading comprehension, analysis, and summarization of academic, informational, and technical text.
Apply creative thinking and problem-solving skills in academic, workplace, and civic-related writing.
CSLOs
<p>Use context to infer the meaning of words or phrases in a listening passage or presentation appropriate for this level, and use speaking skills for developing and presenting team projects with digital support. Outline
Course Outline
<i>The ESL Program recognizes that our students’ race, ethnicity, linguistic background, national origin, and socio-economic status can provide a rich source of background knowledge and foundational strengths from which to tap into as they build mastery of their English language skills.</i>
Listening Skills (9-20 hours)
<ul style="list-style-type: none"> Main ideas and supporting details in a listening passage and development of themes/ideas

- Conversations and discussions about a range of topics, texts, and issues
- Reasoning and evidence in speech
- Specific and detailed spoken instructions on an academic or workplace topic
- Speaker's purpose, point of view, use of evidence, and points of emphasis
- A question and a statement regardless of word order and points of emphasis, tone, or mood based on intonation
- Idioms and figurative language in clear contexts

Speaking Skills (9-20 hours)

- Oral presentations about a variety of academic and workplace topics or events
- Oral announcements and instructions that include multiple details
- Information from varied and multiple sources organized into an oral report
- A wide range of complex academic and workplace vocabulary and phrases
- Language choices and style according to purpose, task, and audience in various social, academic, and workplace contexts
- A detailed sequence of events or steps in a process, with clear sequential or chronological structure
- A speaker's point of view, citing examples
- Developing and presenting academic team projects with digital support

Reading Skills (27-60 hours)

- Level-appropriate pre-reading, while-reading, and comprehension strategies, using a variety of authentic texts
- Reasoning in persuasive text and textual evidence to support analysis
- An author's point of view, audience, and purpose
- Understanding of advanced idiomatic language and expressions (e.g., phrasal verbs, semantic clusters, and other collocations supported by contextual clues)
- Resource materials (e.g., dictionary, thesaurus, etc.)
- Clear arguments and specific claims in a text, following the line of reasoning to its conclusion
- Specific information or definitions, or restatements of concepts, in a two-page authentic text

Writing Skills (28-61 hours)

- A range of college-level academic words and phrases
- Expository essays with multiple paragraphs, a thesis, supporting details, and a conclusion, referring to the ideas of others
- Claim about a topic with introduction and ordered reasons or facts that effectively support the claim, and concluding statement
- Short research projects to answer a provided question, and information gathered into an organized written report
- Formal and informal style and tone
- Detailed sequence of events or steps in a process, with clear sequential or chronological order
- Informational topics with facts, details, and evidence
- Letters of different purposes (e.g., a request, praise, or complaint)
- Increasingly complex phrases and clauses, and expanded simple, compound, complex, and compound-complex sentences
- Indirect quotations to support the writer's statement
- The writing process: writing for content, capitalization, punctuation of varied sentence types, grammatical form, and spelling
- Citation of sources

Pronunciation Skills (1-5 hours)

- Intonation, pitch, and stress
- Different lengths of syllables and syllable patterns for meaning
- Contrastive stress (e.g., *my* car, not *your* car)
- Reduced forms and linking

Language Structure and Grammar (22-50 hours)

- "Yes," "no," "or," and "Wh-" questions and answers for all forms including future perfect progressive
- Compound, complex, and compound-complex sentences with correct word order, punctuation, and mechanics
- Adverb, adjective, and noun clauses, focusing on reduced forms, embedded questions, and imperatives
- Conditionals (all forms)
- Modals/Modal phrases to express appropriate register, auxiliaries, and passive voice
- Subject-verb agreement with a variety of subjects and inside relative clauses, including gerunds and infinitives
- Word forms, articles, other determiners, and pronouns
- Verb tenses and sequence

College/Workforce Preparation (hours are included in integrated skills instruction)

- An educational or career goal, and the steps and resources to achieve it
- A personal statement for applying to earn a scholarship or applying for college
- College application
- A list of questions to ask a career-related representative
- Resumes, cover letters, and thank you letters
- Effective job promotion strategies (e.g., ask for a merit raise)
- Work-related written report
- Critical thinking, creative thinking, and problem-solving skills
- Advanced-level pre-collegiate and some collegiate academic vocabulary

Digital Literacy (hours are included in integrated skills instruction)

- Online portfolio or video resume
- Digital content that addresses personal, career, and academic needs
- College online resources and services to support the learning process
- Digital tools to connect with learners from a variety of backgrounds and cultures, engaging with them in ways that broaden mutual understanding and learning (e.g., participate in an online/hybrid course, training session, or community-based webinar)

Distance Education Addendum**1. Is the method of delivery 100% online or hybrid? Please select one.**

100% Online

2. Title 5 (55204) states that "Any portion of a course conducted through distance education includes regular effective contact between instructor and students, through group or individual meetings, orientation and review sessions, supplemental seminar or study sessions, field trips, library workshops, telephone contact, correspondence, voice mail, e-mail, or other activities." Describe/give examples of the methods of instruction which will be used in the hybrid/online course. Please include how the methods of instruction used in the traditional classroom will be modified and/or replaced in the hybrid/online classroom. How will these methods ensure that you will maintain regular effective contact with the students?

This class is online. The textbook and lab assignments will be delivered through an online Learning Management System (LMS), such as Canvas. Instructors may also deliver online content to replicate ongoing traditional classroom interaction (i.e., instructor-student, student-student, student-instructor) in multiple formats (e.g., a combination of discussion boards, blogs, wikis; instructor-developed web lectures, converted PowerPoint presentations, digital video clips; graphics, digital animations; online reference resources; chats, e-mail, webinars; publisher-prepared online materials including CD/DVD support materials and textbook supplements; instructor blog/website; online libraries; and OER resources).

This distance education course will include regular effective contact. Instructors will regularly initiate interaction with students to determine that they are accessing and comprehending course material and that they are participating regularly in the activities in the course. This distance education course is considered a "virtual equivalent" of a face-to-face course. Therefore, the frequency of the contact will be at least the same as would be established in a regular, face-to-face course. At the very least, the number of instructor contact hours per week that would be available for face-to-face students will also be available, in asynchronous and/or synchronous mode, with students in the distance education format. Contact shall be distributed in a manner that will ensure that regular contact is maintained, given the nature of asynchronous instructional methodologies, over the course of a week and should occur as often as is appropriate for the course. A response time of 24-48 hours, Monday through Friday, is desirable but may vary based on course requirements and extenuating circumstances (such as holidays and weekends).

Instructors will maintain regular effective contact related to the course through an LMS such as Canvas; hold group and individual meetings; coordinate orientations, review sessions, supplemental seminars, or study lessons; and clearly establish contact policies via text, e-mail, or other media options (e.g., video conferencing). Instructors may use announcements, discussion boards, wikis, blogs, or similar technology available at the time the course is offered. Instructors trained in the teaching of English as a Second Language will design this interaction to be effective by being relevant to recent or upcoming content, to current events, or to information that students can use to relate the course content to other experiences. Using a wide variety of strategies will allow for student differences in contacting the instructor and/or other students. Instructors will ensure the lines of communication remain open between the instructor and the students. Instructors will provide regular feedback on assignments, which may be held during a 30-minute virtual meeting with each individual student. Also, each student will have the opportunity to ask questions and have those questions addressed through class discussion boards.

3. Describe how you will promote and monitor effective student-to-student contact.

This course will include online student group discussion boards in order to foster interaction in the target language. Instructors will use discussion boards to facilitate class discussion, along with the possibility of using blogs, wikis, journals, etc., allowing student-to-student posts, which will provide further opportunities for students to interact in a virtual environment. Instructors will view these interactions regularly, making constructive comments to assure the effectiveness of student-to-student contact.

4. Describe and give examples of how student learning will be evaluated.

Student learning will be evaluated by a combination of formative and summative assessments (e.g., homework assignments, quizzes, tests, online activities, and evaluations consistent with the Course Outline of Record). Opportunities for student self-assessment will be provided at the end of each learning module, as formative assessments. Examinations and assignments will be given and submitted online. Students are expected to conduct one hour of outside study time for every one lecture hour as stated in the Course Outline of Record.

5. List any special texts, equipment, or supplies needed for this course or sections of this course being offered through distance education.

Access to an up-to-date computer with Office Applications (MS Word, PowerPoint, Excel, OR Pages, Keynote, Numbers, OR Open Office equivalents), webcam, speakers and microphone, and reliable high-speed internet connection that is capable of supporting streaming video. Internet speed of 4Mbps download and 512kbps upload or faster is recommended. Students should have access to at least two Internet browsers (e.g., Mozilla Firefox, Safari, Google Chrome). Instructors might require the use of a particular browser. Students should have a "back-up" computer/plan in the event that their main computer experiences technological difficulties. Students may be required to use a webcam for quizzes, tests, and exams.

6. Describe the college resources that will be required by you and your students (facilities, technology, student support services) for this course.

Technology: Computers, tablets, the Internet, and an LMS (such as Canvas).

Student Support Services: Students are not required to use any college resources, but should have access, as needed, to available online library services, counseling, tutoring, DSPS, and computer lab/learning center.

7. Section 55200 of title 5 states "In addition, instruction provided as distance education is subject to the requirements that may be imposed by the Americans with Disabilities Act (42 U.S.C. §12100 et seq.) and section 508 of the Rehabilitation Act of 1973, as amended, (29 U.S.C. §794d)." What technologies will you be using for instruction (video, flash, images, etc)? How will you ensure that instruction using these technologies is accessible to students with disabilities?

Online classes at Santiago Canyon College are designed to be welcoming, accessible, and usable by everyone, including students who are English language learners, have a variety of learning styles, have disabilities, or are new to online learning. The instructor of this online class will work with DSPS to ensure that all course materials are ADA accessible before being offered to the public, such as documents being correctly formatted, images having alternate text descriptions, audio is transcribed, video is closed captioned, and third-party materials, such as publisher materials, websites, or shared student materials, are evaluated for accessibility and inaccessible elements are appropriately accommodated when needed.
