

The Easter Season

Easter is a very happy celebration. It is always on a Sunday in March or April. Spring is beginning, and there is new life in nature. Plants begin to sprout, and flowers begin to bud and bloom.

Easter in Church

Easter Sunday is not a federal holiday, but it is a day celebrated religiously in most churches. Celebrations can begin early in the morning, even at sunrise.

Children and Easter

Easter is a special day for children. They color eggs and put them in pretty baskets. Children receive gifts of candy that sometimes also come in a basket. Parents tell small children that the baskets of eggs and candy are from the Easter Bunny, a magical rabbit that gives children gifts.
