

Spring

The first day of spring is March 20 or March 21. It is the day when the night is as long as the day. This is called the spring equinox.

- Grass begins to grow in the spring. Leaves begin to grow on the trees. Flowers begin to grow.
- Bugs come out, and birds fly back from the south. Birds sing and build nests in the spring. Bears and other sleeping animals wake up.
- Farmers and gardeners plant seeds in the spring.
- Many people clean their houses completely for spring. This is called “spring cleaning.”

Review Exercise

<u>Finish the sentence</u>	<u>Answer</u>
1. <i>The first day of spring is</i>
