

RANCHO SANTIAGO COMMUNITY COLLEGE DISTRICT

Request for Specific Equivalencies to Minimum Qualification for a Discipline/Program

FORM I

Each time a department wants to alter its agreed upon equivalencies for all discipline hirings, it must file a new "Request for Equivalencies to Minimum Qualifications" form.

Name of the Discipline: Apprenticeship Surveying

1) List the current Minimum Qualifications for the discipline:

1. Possession of an associate degree and four years of occupational experience in the subject matter to be taught. A verification of employment letter must be provided to support the four years of occupational experience.

OR

2. Six years of occupational experience, journeyman's certificate in the subject matter areas to be taught; and completion of at least eighteen semester units of degree-applicable, college level course work, in addition to apprenticeship credits.

2) List the equivalencies that the Department accepts as valid:

Six years experience in the field and journeyman certificate, plus one of the following:

Awarded the classification of "Certified Party Chief" by the Joint Apprenticeship Committee. To qualify for certification, it is necessary to have 2,000 hours experience as Party Chief, and complete eight quarters of additional survey coursework after becoming a journeyman. The experience as Party Chief must have been with an employer who has been approved by the Joint Apprenticeship Committee. Upon verification of experience, the file is reviewed and signed off by two officers, then ratified by the Joint Apprenticeship Committee.

OR

Licensure by the State of California, Board for Professional Engineers, Land Surveyors, and Geologists as a Professional Land Surveyor, or Land Surveyor-In-Training.

3) Rationale:

College degrees are not required in the Land Surveying industry. Experience has long been a substitute for college degrees in the field of survey. The advisory committee feels that the equivalencies outlined above reflect experience equal to college credit coursework outside their field, and accurately demonstrates the potential instructor's ability to effectively manage the classroom and student learning.
