Request for Specific Equivalencies to Minimum Qualification for a Discipline/Program

FORM I

2012 DEC 11 P 2: 49
HUMAN RESOURCES/RSCCD

Each time a department wants to alter its agreed upon equivalencies for all discipline hirings, it must file a new "Request for Equivalencies to Minimum Qualifications" form.

Name of the Discipline: Mathematics

1) List the current Minimum Qualifications for the discipline:

Master's degree in mathematics or applied mathematics **OR** bachelor's degree in either of the above **AND** master's degree in statistics, physics, or mathematics education **OR** the equivalent.

2) List the equivalencies that the Department accepts as valid:

Master's degree and 30+ semester units in upper division or graduate level courses of math (or applied math courses from departments other than math to be evaluated as to math content by their course outlines), 18 semester units of which must be graduate level, **AND** at least two years of mathematics teaching experience.

3) Rationale:

The equivalencies listed above are intended neither to raise nor to lower standards from the minimum qualifications established for a position. However, in the case that an applicant does not possess the exact minimum qualifications, the equivalency provides a pathway to possible employment. Although lacking one of the degrees listed in the minimum qualifications, a candidate granted an equivalency possesses qualifications that are at least equivalent to one of the listed degrees via a combination of graduate studies and work experience.
