

Santa Ana College Credit Enrollment Trends by Zip Codes of Residence, Fall 2002-Fall 2004

Compiled by the RSCCD Research Department, October 2004

Background

In 2003, a decision was made to mail, in lieu of a Santa Ana College (SAC) class schedule, a postcard notifying neighboring residents of the availability of class schedules and the process by which a copy could be obtained. This report has been compiled to assist administration and management in assessing the impact of that decision on enrollments.

Summary of Findings

- Total credit enrollments decreased by 15% (n=4126) from Fall 2002 to Fall 2004; **Over three-quarters of those enrollments (77%) were comprised of students who resided outside RSCCD boundaries.**
 - Overall, there was a 7% decrease (n=945) in credit enrollments of students who reside inside RSCCD boundaries, and a 22% decrease (n=3181) in enrollments of students who reside outside the District.
 - There was a 5% decrease (n=623) in “on-campus” credit enrollments of students who reside within District boundaries, and a 1% increase (n=100) in enrollments of students who reside outside the District.
