In the heart of Orange County lies Rancho Santiago Community College District, home of one of the state’s oldest community colleges, Santa Ana College, and also one of its newest, Santiago Canyon College.

Both colleges provide education for academic transfer and careers, courses for personal and professional development, and customized training for business and industry.

In addition to Santa Ana College and Santiago Canyon College campuses, the district’s facilities include the Centennial and Orange Continuing Education Centers, the Digital Media Center, Joint Powers Fire Training Center, the Orange County Sheriff's Regional Training Academy, the College and Workforce Preparation Center, and the District Operations Center.

Solutions for Business

The RSCCD district is an active partner with Orange County businesses and industries to expand the knowledge base for increased competitiveness and an improved quality of life for all residents.

Through its economic and workforce development programs, the college district delivers proven instructional services that yield workforce improvements.

Investing in Economic Growth and Global Competitiveness

To compete in today's economy, a company's workforce must be dynamic, efficient, and flexible. Technology has raised the skill level required for nearly all occupations. Employers are finding significant skill gaps that hinder the performance of their workforce.

Sometimes the solutions are simple and straightforward. Other times, the causes of the problems are less clear. Before spending unnecessary funds on training that may or may not cure the problem, some employers choose to utilize a performance consultant to ensure that the proper training is being sought and that the training is transferred to improved on-the-job performance.

- The college district serves a population of more than 768,000 residents and encompasses 24 percent of Orange County's total area (193 square miles).
- The district offers educational programs in seven locations accounting for 1,130,456 square feet (not including any leased instructional space).
- The district serves 37,751 students in our college credit program.
- Continuing education courses are a substantial part of the college district's commitment to the community. In fall 2016, 14,837 students enrolled in these college preparation and career enhancing courses.
- RSCCD has become a regional leader in Career Technical Education enabling the district to develop stronger relationships with industry.

Workforce Development

Our mission is to develop an employee's skills and knowledge that can help a company achieve the full potential of its human resources to reach its goals.

One of RSCCD's missions is to help local businesses meet their goals by providing convenient, affordable employee training solutions.

We create tailored programs that fit our business clients' needs. Whether your company needs employee training, employee skills assessments, outplacement assistance, or other human resources management assistance, we can help your company in attaining the highest levels of employee performance and productivity.

In 1915, Santa Ana Junior College opened its doors to 26 students as a department of Santa Ana High School. It was the second junior college founded in Orange County, behind Fullerton College, and the fourth oldest in all of California.

Santa Ana College (SAC) is known for its academic programs as well as top-ranked student services. Students can enroll for full semester, mini-semester (GR8 Weeks), weekend and online classes. A wide variety of courses are available in business, math and sciences, arts and humanities, and career and vocational education. SAC offers over 300 subjects leading to the associate degree in science or arts or vocational certificate of competency.

For the past six consecutive years, Santa Ana College has been recognized by [Community College Week](#) as one of the top associate degree producers nationally for minority students. The college is ranked 20th among the top 100 associate degree producers for “total minority” students in the nation.
